### Remark Codes:

- **JC:** *Joint Construction.* A MILCON project that combines the space and functional requirements of two or more Service Components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.
  - Each component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage.
  - Cost savings occur due to the design and construction of one facility instead of two.
  - Cost savings also occur in contract administration, supervision, inspection, and overhead.
  - Cost savings continue after construction by eliminating duplication of the following requirements: facility sustainment, antiterrorism/force protection, future restoration and modernization costs.
- **JU:** *Joint Use (or Joint Use Construction).* Projects that will be used by more than one component during training activities, however will be funded, designed, and constructed by a single component.
- **Blank:** *Unilateral Construction*

## **JOINT CONSTRUCTION DEFINITION**

- **Joint Construction project - a Military Construction (MILCON) project that combines the space and functional requirements of two or more Service components into one facility, thereby eliminating the need to build separate (or unilateral) facilities.**
  - Each Component occupies the facility, and has some exclusive use space; however, the facility also has shared or common use areas that effectively reduce the overall required square footage (resulting in reduced construction costs).
  - Cost savings occur due to the design and construction of one facility instead of two (or more) separate facilities.
  - Cost savings also occur in contract administration, supervision, inspection, and overhead (one contract versus two or more).
  - Cost savings continue after construction by eliminating duplication of the following requirements: Antiterrorism/Force Protection; facility maintenance and repair (i.e., Sustainment); Restoration and Modernization costs.
